TELEGRAPHIC MATTER.

For many months I had been sorely troubled with nvariably accompanied with a headache. I had oticed also that at stated periods following these pains my urine would be highly colored, and leave heavy brick-colored sediment when allowed to stand in the vessel. I could not work, and I was at this place. On the second day there was discoursged to an alarming degree. Nothing helped me. I was prescribed for by some of the best physicians in New York City, where I was located at Moscow. The first war a trotting race, for a purse of \$500. The entries were Percora Hayward and Frank Moscow. The first three hears were taken that time, but derived no benefit of relief. When by Pescora Hayward. Time, 2:30, 2:31, 2:29, that time, but derived no benefit or relief. When almost ready to give up in despair an acquaintance said to me, 'I want you to try Hunt's Remedy.' I did so, and hardly twenty-four hours had elapsed before I obtained relief, and in three weeks' time all the aforesaid aliments had disappeared, and I improved steadily, and was infused with new life, so that I could resume my business again, which is one that subjects me to strains of all kinds, which are likely to affect the kidneys, namely: Erecting telegraph and telephone lines. Hunt's Remedy now occupies the most honored place in my cabinet of medicines. I would not be without it, and I cheerfully and heartily recommend it to all who are troubled with discases of the liver, kidney or urintime. In the fifth heat Sorrel Ben was first, troubled with diseases of the liver, kidney or urinary organs. It never fails to cure."

New Life

is given by using Brown's IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's Iron Bitters ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

> Gentlemen: I take plea ure in stating that I have used Brown's Iron Bitters for ma laria and nervous trouble caused by overwork, with excellent results.

An invention has just been perfected that is calculated to prove of great value to the immense traveling companies that go from one point to another in the United States during the "season." The invention referred to is a railroad freight car. To be sure, a freight car is seldom a very potent factor in swelling the receipts of a performance; but in this case it is the novelty, convenience and easy facility with which it is handled that make the car valuable. The car is so built that it can be taken from the railroad track and run along the street in the same manner as an ordinary truck. It can be backed up the back door of any theater and the scenery, propdoor of any theater and the scenery, properties, costumes, etc., of the play packed away in its interior. It is then hauled back to the railroad and carried to its destination, where it undergoes the same operation as before, except that the "props," scenery, etc., are taken out of the car, where they have been undisturbed since they started on the jayrney. There is no Specialty. they started on the journey. There is no rehandling whatever necessary, the car running on any track and being commolious enough to accommodate the most ambersome sets. It was at first thought street, San Francisco. that its enormous length would interfere with its rounding short curves, but the railroad men say that its length will cause

no difficulty.

Messrs. Shook & Collier, of the Union quare Theater, are the first managers to give it a trial, and have had several built especially for their company's forthcoming trip to California. Their cars are at present lying at the Eric Railroad depot at Jersey City. The decorations on the outgive it a trial, and have had several built Jersey City. The decorations on the outside of them are as elaborate as those on the outside of professional circus chariots. To give an idea of their capacity, J. W. Collier, who will accompany the troupe to San Francisco, will take with him the embassy and duel scenes of "The Banker's Daughter," the ball-room set and the dining room set of "A Parisian Romance," the lefty street set from "The Rantzaus," the splendid scenery of the parlors and drawing-rooms of "Daniel Rochat," and very set of scenery in the "Lights o' London." Ordinarily, the scenery of the latter play is enough to fill two ordinary cars, but in the new cars it will occupy a very small amount of space. Besides this, the properties, costumes, and other accessions. It is a sceneral content of the properties of th the properties, costumes, and other accesseries to the reportoire of dramas that the company will play in San Francisco will form an immense amount of baggage. The Eric Railroad Company will attach the cars to a fast freight train that will start five or to a fast freight train that will start five or six days in advance of the company, and will reach San Francisco in twelve days from the time they leave New York .- [Pat-

LINCOLN ON MCCLELLAN.

In a recent address at Bellevue, Mich., ex-Jovernor Austin Blair gave an account of the Convention of Governors of Northern States that met at Altoona, Penn., at the ime of the issuing of the Emancipation Proclamation by President Lincoln in 1862. The Convention was called to bring an offuence to bear upon the President to induce him to issue a proclamation or do some act that should set at liberty the 4,000,000 slaves, but the President outwitted the twenty two Governors by issuing the proclamation the same day their Convention met. The Governors then decided had intended, but an address complimenting him upon the step he had taken. This address was prepared in an able manner by Governor Andrew, of Massachusetts, who read it to President Lincoln as he sat at his desk, while the Governors were seated around the room. After that an incident address was prepared in an able manner by OYAL BAKING FOWDER CO., 106 Wall street, around the room. After that an incident happened that Governor Blair said he had nappened that Governor Blair said he had never related to any one. Governor Kirkwood, of Iowa, since a United States Senator and Secretary of the Interior, rose and said:

"Mr. President—I should be delighted to the streets of the streets of the streets. Highest price for Hides, Sheep Pelts and Tallow. Butchers supplied with Salt, Paper, latest improved Sausage Machines, Stuffers, Lard Presses, etc. Prompt cash returns made for all consignments.

"Mr. President-I should be delighted could I return to my home and say to the people of Iowa that the President of the United States believes that General George B. McCiellan is a loyal man." He branched off upon other subjects connected with the war, and then closed by repeating with more emphasis: "I should be glad, Mr. President, to be able to tell the people of Iowa that you believe in the loyalty and patriotism of George B. McClellan." Taking his feet down from the desk upon which they had been resting, Mr. Lincoln

sprang to his feet and straightened up apparently two inches taller than usual, and said, with much force and apparent excitability: "I'll tell you, gentlemen, General McCiellan is an exceedingly well-informed General, and is very careful, in fact, too careful, and the great trouble with him is THE FIRM OF BEATTY, REATTY & that when he wins a victory he doesn't know what to do with it."

"Why not try somebody else?" mildly suggested Governor Blair. We might do that and might lose an army by it," was the quick response of the President, which Governor Blair admitted

Mail of August 2d has the following: When Mr. Bullock was Sheriff about twelve years ago, our present Deputy, John Lawson, served in a similar capacity under Bullock. During a political campaign Lawson was sent down to San Quentin with some prisoners. Then, as now, he had to go and return by way of San Francisco. As he returned to Woodland from this trip, the Democrats were having a meeting, and all were somewhat encouraged at the outlook, and when Lawson came in they called on him for a speech.
